NO. 27

THE CIVIL SERVICE.

Report of the House Committee.

A Fraud and Farce Under Democracy.

How Clerk Campbell Gave Out Information—Other Interesting Gossip from the Capitol.

By the Associated Press.

WASHINGTON, June 13.—The House committee on reform in the civil service, which conducted the investigation of charges against the civil service this morning held a meeting and agreed upon a report. The committee says: "We find first, that Commissioners Roosevelt and Thompson discharged their duties with entire fidelity and integrity."

"Second, that the official conduct of Commissioner Lyman has been characterized by laxity of discipline in the administration of the commission, and therefore censurable. Your committee will at once investigate the workings of the system and present a subsequent report when the investigation is complete."

Regarding the case of Alexander Campbell, Commissioner Lyman's brother-in-law, the committee says: "It was clear that Mr. Campbell copied the questions furnished by Flynn who gave instructions to persons desiring examinations and that the questions were not obsolete. Campbell should have been dismissed. His retention indicated gross laxity in discipline and his promotion would seem not to have been defensible. The answers of Messrs. Oberly, Lyman and Doyle that they delivered questions that were obsolete. The omission to ascertain the influence of the truth was as reprehensible as to have disregarded it after it had been ascertained."

"The committee does not share the view that Commissioners Roosevelt and Thompson are deserving of censure for not having taken action in the Campbell case when their attention was called to it. There was a concurrence in the statement to them that the matter had been fully investigated and in not taking further action the committee thinks they were thoroughly justified."

Respecting the course of the commission in the case of Shibley, the Milwaukee postoffice employee, who was discharged by ex-Paymaster Paul for exposing frauds, the committee says: "It was apparent to the commission that Shibley was being punished for disclosing the truth. They felt it their duty to aid him by their influence in securing employment, and thereupon recommended him for appointment in the census office. The committee is unable to find anything to criticize in their behalf. Investigation of alleged irregularities in the Milwaukee postoffice, conducted by Doyle and Webster, disclosed an utter disregard of the civil service law in that office. The failure to submit a result of that investigation to the President indicates either a disinclination to discharge an obvious duty or fear that such report would subject the commissioner to censure."

On the reorganization of the commission by the appointment of Messrs. Roosevelt and Thompson, investigation into the abuses and irregularities of the Milwaukee postoffice was held at once and thoroughly.

It is learned that Alexander Campbell has resigned his position as clerk to the commission.

FOR THE CEREALS.

The President Selects Three of the Appraisers.

WASHINGTON, June 13.—The President has selected three of the appraisers provided for in the customs administrative bill and it is expected the names will be sent to the Senate Monday. It is known that Assistant Secretary Tichenor is one of the three and it is thought Solicitor Hepburn is another. Representative Butlerworth today introduced a bill providing for fixing a uniform standard of classification and grading of wheat, corn and other cereals.

The bill authorizes and directs the Secretary of Agriculture to fix, according to such standards as he may prescribe, classification of cereals as in his judgment the usages of trade warrants, and permit having reference to standard and grades now recognized by the chambers of commerce and boards of trade. When such standard is fixed, it shall be made a matter of record in the Agricultural Department, and notice given that such grades be known as United States standards.

Before Senate Committees.

WASHINGTON, June 13.—Senator Washburn proposed an amendment to the tariff bill, which was referred to the Committee on Finance, providing free importation until January 1, 1892, of all machinery imported for the purpose of manufacturing beet sugar, with a rebate of the duty paid on such machinery imported since January 1, 1890.

The Senate Commerce committee practically completed the river and harbor bill this afternoon. All money appropriated for improvement of the Mississippi and Missouri rivers is to be expended under direction and in accordance with plans adopted by the river commissioners.

THE UNION IRON WORKS.

Will Probably Be Awarded the Contract for the New Cruiser.

IN THE TWO HOUSES.

Still Discussing Silver in the Senate.

Final Vote to Be Taken Monday.

The House Considering the Sundry Civil Appropriation Bill—What Has Been Done This Session.

By the Associated Press.

WASHINGTON, June 13.—The resolution appointing Edward V. Valentine Sergeant-at-Arms of the Senate was agreed to.

The close of the general debate on the silver bill has been postponed until Monday at 3 o'clock. The House bill as amended by the Finance committee was substituted for the original Senate bill.

Mr. Morgan's speech was mainly an argument for free coinage. Mr. Aldrich next addressed the Senate. He recognized the disastrous effects resulting from a contraction of the currency, but said an abnormal inflation would be equally injurious. The complete remedy could only be found in such action as would open the mints of all nations to the free coinage of silver. Mr. Aldrich went on to state that the amendments reported by the Finance committee to the House silver bill, and asserted that instead of demoralizing silver the system now in force under the law of 1878 gold was today universally an international money. Silver was not. Congress could not make it so. That had to be done by concurrent action of all the great countries, and until that action took place there could be no equality between the two metals.

Mr. Stewart took the floor to reply to some of Mr. Aldrich's statements. He said that if the Secretary of the Treasury bought \$4,000,000 of silver a month instead of \$2,000,000, we not only would have had a double standard, but silver would be on a par with gold. Responding to a question by Mr. Blair, Mr. Stewart said the present law if executed to its maximum would be far better than any of the pointing measures.

Mr. Platt said that if Mr. Stewart believed that and it be correct, it seemed to him that there was ground on which all might meet together.

Mr. Stewart replied that it was his belief and concluded by saying that Congress should either take steps in advance or do nothing.

Mr. Reagan and Mr. Daniel also spoke in favor of unlimited coinage of silver. Mr. Daniel said that was not to be a final solution of the question it was an essential step toward its solution. It could not be antagonized he said, that anything less than the free coinage of silver would bring it to par. Without concluding his speech Mr. Daniel yielded for a motion to go into executive session and the Senate soon adjourned.

The House.

WASHINGTON, June 13.—The House went into a committee of the whole on the sundry civil appropriation bill.

Mr. Connor said the appropriation carried by the measure was \$28,000,000 or \$10,000,000 less than the regular estimates and \$13,000,000 less than the regular and special estimates. The sundry civil law for the current year provided for the expenditure of \$25,000,000. The pending measure in this bill was more than accounted for by certain extraordinary items.

The fourteen regular appropriation bills had been reported to the House, aggregated \$306,000,000, showing an excess of \$35,000,000 over the appropriations for the current year. This excess was nearly all accounted for in three bills. Pension, \$18,000,000; postoffice, \$12,000,000; and naval, \$2,100,000. The other \$3,000,000 resulted from expansion incident to the growth of the country. The only bill now to be reported to the House was the general deficiency bill, and this would be reported before the close of the fiscal year. There is pending sundry civil and Indian bills. In the Senate Committee on Appropriations are the agricultural, diplomatic and postoffice bills and in the Senate Committee on Commerce river and harbor bills. Pending in the Senate is the Legislative bill. The fortification bill has passed both Houses. The District of Columbia naval and pension bills are in conference. The army and military academy bills are in the hands of the President. This was a favorable showing compared with the condition of bills two years ago.

The following amendments were adopted: Appropriating \$30,000 for a public building at Cedar Rapids, Iowa; \$10,000 for an elevator in the public building at Peoria, Ill.

A motion by Mr. Goodnight to strike out the appropriation for irrigation survey was defeated. The committee rose and the House took a recess.

At the evening session thirty private pension bills were advanced to the third reading, but none were passed.

FAITH AND WORKS.

The Lame, the Halt, the Deaf, the Blind Were There.

PITTSBURGH, June 13.—At least ten thousand afflicted from all parts of the country gathered at Father Mulligan's church in Allegheny City today to be healed and take part in the celebration of St. Anthony's day.

It was a curious assemblage of lame, deaf and blind, drawn by the reports of Father Mulligan's miraculous cures. The afflicted began to arrive yesterday and last night 5000 were camped about the church sleeping on floors, door steps, porches and on the ground. Services began at daybreak and continued all day until late this evening. Thousands were unable to gain admission to the

THE PACIFIC COAST.

San Francisco's City Hall Scandal.

Investigating the Fraudulent Work.

Damages Awarded the Families of Trainmen Killed in an Accident—La Rue Held for Murder.

By the Associated Press.

SAN FRANCISCO, June 13.—At a meeting of the City Hall commissioners today, Architect Wright, who was appointed to inquire into the condition of the contract work performed on the walls of the northwest wing of the new city hall, presented his report.

He stated that forty-three openings had been made in different parts of the wing and about one-fourth of these were found to be filled with rubbish, instead of solid brick. In about one-fifth defective brick-work was also found. The most serious defects were found in the four great piers supporting the heavy iron girders, and which would have to carry the weight of 160 tons each. The piers are filled with rubbish for a part or their height and would have to be taken down. An arch was also found defective.

A communication from contractors McCann and Riddell was read, in which they expressed a willingness to put the work in perfect condition and claimed to have information that George Hanks, who pointed out the defective work to the commission, caused two barrels of stuffing to be placed in a few separate places within the walls, and intimates to some of his fellow workmen that he intended to profit thereby by selling the information to the newspapers. McCann testified that he thought \$500 would cover the cost of the necessary repairs.

A number of workmen testified that Hanks had told them the walls were stuffed by him, and he intended to make money out of it.

WILL NOT CAUSE TROUBLE.

Result of Agent Foster's Investigation of the Filibustering Scheme.

SAN FRANCISCO, June 13.—Col. E. I. Foster, special agent of the Department of Justice, who arrived here a few days ago, where he has been investigating the recent filibustering movement to capture Lower California, left for Washington tonight.

He declined to make any statement in regard to the result of his investigations at San Diego further than to say that the filibustering scheme was of much magnitude and fully as extensive as had been reported. It may result in an increased military force being placed along the Mexican border and especially on the Pacific Coast by the United States Government. The results of my investigation will not cause any trouble between the United States and Mexico.

Broke His Arm.

SAN JOSE, Cal., June 13.—In a fight between Wiley Evans, colored, and Joe Mulholland last night, Mulholland announced in the twenty-third round that his left arm was broken and he could not go on. Prior to this Mulholland had been doing most of the fighting. The referee declared the fight off but subsequently announced that he would reserve his decision.

ABOUT THOSE OFFICES.

Continuation of Testimony in the Millimore Court Martial.

TUCSON, Ariz., June 13.—At the Millimore court martial today Captain True completed his evidence for the prosecution. He testified that the lowest bid he had received for rent of offices for the two paymasters and quartermasters was \$75 per month. To this would have to be added pay for a night watchman, which would bring the total expenses considerable above the amount now paid, which is alleged to be exorbitant.

Captain Murray, Fourth Cavalry, testified that Millimore told him on several occasions that the property on which he (Millimore) resided was his own.

Maj. A. S. Kimball testified that in 1888, during the Indian campaign, Captain Millimore reported to him for duty and had been disbursing quartermaster under him since that date and had disbursed nearly one million dollars.

"No question ever had been raised as to any expenditures," Major Kimball continued, "the leases for the offices being in Mrs. Boch's name. I inferred that she was the actual owner and I had no reason to change my mind."

Awarded Damages.

SALEM, Ore., June 13.—In the suit against the Southern Pacific company, brought by Mrs. Emma Miller, widow of Engineer Miller, who lost his life in a railroad accident near Albany a year ago, the jury today awarded the plaintiff \$5000 damages. The administration of the estate of Clement Guthrie, the fireman who lost his life in the same accident, was also awarded damages in the sum of \$3000.

CONSERVATIVE CAUCUS.

SAN FRANCISCO, June 13.—At a caucus of the Conservative party at the Carlton Club today, Lord Salisbury announced that in order to cope with business, bills which reach an advanced stage during the next session would be resumed at the next session at the same stage. Several Conservatives condemned such a course, saying it would inaugurate a bad system. After a lengthy discussion the
